PROJECTS

Tech-Blog | GitHub: [tech-blog-2.0](#) | **Deployed App:** [tech-blog-by-hazkeel](#)

A comprehensive full-stack application designed to serve as a tech-oriented blog platform. This application adheres to the Model-View-Controller (MVC) architectural pattern, employing a separation of concerns approach to enhance code organization and maintainability.

E-Commerce Backend | GitHub: [e-commerce-backend](#) | **Video Demo:** [e-commerce-backend](#)

A backend solution to run an e-commerce website using Node.js and Express.js. The platform's backbone is made up of this backend architecture, which combines with MySQL2 and Sequelize to manage database activities effectively. Ensuring a smooth and dependable data flow by utilizing the capabilities of these technologies, enabling efficient interactions between users and the program.

SQL-Employee-Tracker | GitHub: [sql-employee-tracker](#) | **Video Demo:** [sql-employee-tracker](#)

An employee tracker app with Node.js, leveraging the power of Inquirer, MySQL2, and Dotenv dependencies. This sophisticated application is designed to enable intuitive data interaction through a user-friendly interface. Through Inquirer-powered prompts, users can intuitively create, read, update, and delete records within these tables.

WORK EXPERIENCE

Office Assistant

May 2021 - Aug 2021

AMJ Inc.

Toronto, 255 Old Kingston Rd

Managed client information and ensured up-to-date records. Delivered technical support for payment account inquiries via phone and email, using company software. Developed a tailored Inventory Management System for Toronto properties, enhancing efficiency and cost savings. Additionally, traveled to update inventory records and created compelling graphic designs for community events, effectively promoting them.

New Accounts & Client Documentation

May 2020 - Aug 2020

RBC Wealth Management

Toronto, 180 Wellington St W

Enhanced efficiency and accuracy in document processing and data management by implementing an organized system for processing RRSP, TFSA, Investment, Joint Investment, and Beneficiary documents, ensuring compliance with privacy regulations and maintaining confidentiality. Managed a daily influx of over 100 documents, optimizing document processing and data capture through efficient review, scanning, and electronic transmission to other departments. Developed and utilized the Client Source Data Management System for seamless data entry and maintenance of accurate and up-to-date client records, further improving service delivery and data management processes.

Fee Billing Operations Administrator

May 2019 - Aug 2019

RBC Wealth Management

Toronto, 180 Wellington St W

Reviewed daily reports to meet client requirements and improve accuracy. Employed billing setup enhancements by analyzing system requirements, leading to more efficient fee processing. Addressed billing inquiries, managed investigations, and resolved client accounts issues, ensuring smooth and compliant operations.
